

Lab Bench

Encourage collaboration with this versatile bench

Group people together around this versatile Lab Bench with high pressure laminate top. Perfect for collaboration and those who value flexibility, comfortably sit or stand at.

Upgrade your science classrooms with our newly designed Lab Bench, crafted specifically to meet the needs of senior students. This durable bench, with dimensions of 1200mm x 600mm and a height of 900mm, is the perfect addition to any school laboratory, providing a robust and reliable workspace for a variety of scientific experiments and practical lessons.

Features

- **High-Quality Surface:** The bench features an HPL (High-Pressure Laminate) top with rolled edges on the two long sides, ensuring a smooth, durable surface that is resistant to chemicals, scratches, and easy to clean.
- **Sturdy Construction:** Built with a 32mm square leg frame design, the bench includes rails on three sides for added stability and strength, making it suitable for demanding laboratory environments.
- **Optimised Height:** Standing at 900mm high, this bench provides a comfortable working height for senior students, facilitating hands-on experiments and research.
- **Space Efficiency:** With its compact size yet generous working surface, the bench fits well in various lab settings, maximizing available space while offering ample room for conducting experiments and other scientific activities.
- **Safety First:** The rolled edges on the tabletop reduce the risk of injury, making this bench a safe choice for students to work on intricate and detailed tasks.
- **New Zealand Made.**
